BREATHE IN the fresh alpine air

At 2,509 m, the Timmelsjoch High Alpine Road ranks among the highest paved passes in Europe. Even in June, you may still see metre-high walls of snow along the road. At the top of the pass, the extent of the panorama is as impressive as the mountain air is refreshing. If you want to stop off for a break, Rasthaus Timmelsjoch serves hot meals all day. Hikers and climbers will be in their element in the surrounding Ötztal and Stubai Alps. You can also walk along the original path over the pass (E5) like the smugglers back in the olden days.
